About us

We are Kayla and Michael, the faces behind The Sun Kissed Travellers. We have just begun our journey as social media influencers, bloggers and vloggers. We have been sharing our creative content on all platforms including Instagram, TikTok, YouTube and our website.

We are currently travelling around Australia full-time and living out of our van while we do it. Our goal is to help show others how easy travel can be and that it is achievable to anyone with the right mindset. We want to promote the beauty of this country and encourage others to start exploring by showing off all the incredible parts of Australia.
